Classy Glam Wedding

Keyword “romance”. When it comes to traditional wedding decoration, the necessary essentials are large flower arrangements full of precious blossoms, chambersticks with long straight candles and fine table linen. Moreover, a clear color concept makes the whole event look a lot more elegant. The wedding’s flower decoration is usually aligned with the Bridal Bouquet, which is preferably round and compact. Precious flowers like roses and gerberas are especially favored because not only do they look very classy, but they also have a profound meaning. In a lot of cases, the Bridal Bouquet solely consists of roses.

DIY - Wedding

HERZLICH WILLKOMMEN

Not every bridal couple is equipped with an unlimited budget, nor does every couple want to spend huge amounts of money on a wedding. For this reason, it has become more and more common to complete your wedding decoration with loving handicrafts.

Provide your customers with the right do-it-yourself tips. That way, the celebration is not going to end into a disaster, but it will turn into an individual and special event – at a low price.
